

ORIGIN & CAUSE
SOLUTION

The fire may be out, but your
work is just beginning.

WATCH HOUSE
INTERNATIONAL
SECURITY SAFETY TRAINING

Origin & Cause

What Sets Us Apart

Experience

Our Investigators have perfected origin and cause investigations. They have determined the origin and cause of thousands of fires and explosions with losses in the hundreds of millions of dollars.

Under the microscope of some of the world's most newsworthy events they have investigated numerous cases world-wide involving fire and explosive incidents. They have set the standard in practice, protocol and testimony development for today's certified fire investigator.

All of our professionals are certified by the International Association of Arson Investigators (IAAI) as Certified Fire Investigators (CFI). Additionally, Watch House has a significant number of retired ATF CFI's, who have completed a rigorous 2 year training program consistent with a master's degree. Our Origin and Cause program is managed and monitored by these same retired ATF CFI's.

All of our investigations comply with the current standards set forth in NFPA 921 and 1033, to include technical review of reports.

Investigator Minimum Qualifications

- 🔥 Certified as a Fire Investigator by the International Association of Arson Investigators (IAAI).
- 🔥 Of good moral and ethical standing.
- 🔥 Adhere to the principals of NFPA 921 and 1033.
- 🔥 Able to pass a "Frye Test" or Daubert hearing in any criminal or civil court.
- 🔥 Pass an extensive vetting process which includes a background investigation.
